## EDUCATION

**Miami University, Farmer School of Business** — Oxford, OH
Bachelor of Science in Accountancy — GPA 3.35
**Honors/Awards**
Dean's list, 2023-2024

**University of California, San Diego Rady School of Management** — San Diego, CA
**Master of Science in Business Analytics** — GPA 3.8

## WORK EXPERIENCE

**TRS Group** — **Zhuzhou, China**
**Cost Accounting Intern** — **December, 2023- February, 2024**

- Recorded raw-material receipts and cost entries; performed three-way match among purchase orders, goods-receipt notes (GRNs) and invoices in Kingdee/Yonyou (UFIDA) ERP; used Excel (pivot tables, VLOOKUP) to batch-reconcile quantities and amounts; assisted two month-end closes by organizing and archiving source documents (GRNs, material-requisition/issuance slips), preparing cost vouchers and manufacturing-overhead allocation schedules; coordinated cross-functional exception closure to improve close timeliness and accuracy; participated in inventory accounting and month-end cost settlement (material price variance, material issuance, WIP/finished goods) and produced concise cost analyses for review.

**Baker Tilly International Limited** — **Changsha, China**
**Audit intern** — **June 3, 2024-July 9, 2024**

- Participated in the IPO audit of Changsha ISKY Chemical Co., Ltd.: assisted substantive testing for cash, selling expenses, and revenue, sampling ~500 vouchers; visited 3 subsidiaries (new materials, circular energy, recycling technology) and joined physical counts of fixed assets, construction-in-progress, and work-in-process—verified ~150 asset locations, 9 CIP projects, and 18 WIP batches, and prepared 3 difference & remediation tracking sheets; compiled corporate and key-executive bank statements, assisted with 6 bank confirmations and reconciliations, and prepared/updated 20+ audit working papers to support prospectus disclosure consistency checks.

**CITIC** — **Changsha, China**
**Fixed Income Intern, Institutional Clients Department** — **July 12, 2024-August 12, 2024**

- Maintained a rates–credit–liquidity dashboard in Wind + Excel and delivered one weekly market brief; supported two prospective LGFV (local government financing vehicle) bond deals by compiling financials and disclosures, assisting with debt-service/DSCR worksheets, and co-authoring a 6-page issuance brief; sat in on 5 issuer/ratings/law-firm meetings and helped prepare 4 sets of minutes and 1 Q&A.

## COURSES & PROJECTS

**BUS 104 Client Challenge — TerraSmart Delivery & Scheduling Optimization** — **Oxford, OH**
**Team Leader at Miami University** — **Sep 2023 – Dec 2023**

- Real-client course project: addressed mismatches between solar-panel material readiness and scheduling that caused lead-time volatility. I led the data & process track in a 4-person team—based on 1 client briefing + 2 feedback rounds defined KPIs (delivery lead time, stock-out rate, inventory turns); used Excel to clean/pivot/visualize data; built a demand–capacity–inventory calculator and ran 3 scenarios; delivered a one-pager and two reusable templates (material thresholds; scheduling rules/record definitions). Our final pitch received positive feedback, and the client adopted parts of the record standard.
- Contribution & skills: end-to-end loop from requirement clarification → data modeling → actionable recommendations; strong cross-team/cross-cultural communication, structured presentation, and business-oriented problem-solving with a delivery mindset.

## ACTIVITIES & CAMPUS INVOLVEMENT

**Chinese Students & Scholars Association, Miami University** — **Oxford, OH**
**Organization Department Member** — **Sep 2023 – May 2024**

- Assisted in planning and delivering 5–7 flagship events (80–200 attendees each); scheduled and coordinated 10–15 volunteers and on-site run-of-show; liaised with vendors and sponsors to execute within budget; managed registration and produced promotional assets (Canva / social media); built registration & post-event review templates and, within 72 hours, completed data roll-ups and action lists—ensuring events were safe, compliant, and repeatable.

## SKILLS / CERTIFICATIONS

**Technical Skills:** R (Proficient); SQL (Proficient); Python (Proficient); Excel (Advanced); Access (Proficient)

**Languages:** Mandarin Chinese (Native); English (Professional working proficiency)
